July 1, 2016

To whom it may concern:

As a Built Green and NW Energy Star 3rd Party Verifier, Evergreen Certified has inspected this project. As part of the Built Green verification process, we confirmed all needed points and credits claimed by the builder on their Built Green checklist. The builder paid attention to the air sealing process by applying proper air sealing techniques to the top and bottom plate, vertical and horizontal hole penetrations. We verify that this project is fully expected to qualify for Built Green 5-Star.

Street Addresses	280 Wills LN NW & 288 Wills LN NW
City, State	Bainbridge Island, WA
Developer	Asani
Unit Types	TH - 2
Built Green Level	5-Star

Thank you,

A handwritten signature in black ink, appearing to read "Tadashi Shiga".
